

CSO-HNS Workshop

Upper Aerodigestive Tract Endoscopy

Saturday, October 17, 2020, 14:30-16:30

COURSE DESCRIPTION

This course is designed for the practicing otolaryngologist who wishes to enhance his or her knowledge of upper aerodigestive tract endoscopy in adults and children. This is a virtual course designed to be a refresher on how to select and assemble the required endoscopic equipment. The course will be presented via a short didactic lecture focusing on the nuances of equipment selection and review of the critical anatomy. This will be followed by a virtual demonstration from the Karl Storz Simulation Laboratory using mannequins. The course will conclude with the review of clinical scenarios with audience participation.

COURSE OBJECTIVES

At the conclusion of this virtual course, participants will be able to:

- Select the appropriate instrumentation for upper aerodigestive tract endoscopy in children and adults
- Discuss management algorithms for the successful retrieval of foreign bodies of the esophagus and airway

COURSE DIRECTORS

- **Dr. Paolo Campisi**, Professor and Vice Chair Education, University of Toronto
- **Dr. Yvonne Chan**, CPD Director and Associate Professor, University of Toronto

COURSE FACULTY

- **Dr. Paolo Campisi**, Professor and Vice Chair Education, University of Toronto
- **Dr. Lily Nguyen**, Associate Professor, McGill University
- **Dr. Eric Monteiro**, Assistant Professor, University of Toronto
- **Dr. Jun Lin**, Assistant Professor, University of Toronto

PROGRAM

- 14:30** Welcome & Introduction - Dr. I. Witterick
- 14:40** Instrumentation and Critical Anatomy for Aerodigestive Endoscopy - P. Campisi
- 15:15** Virtual Demonstration of Endoscopy – P. Campisi
- 15:45** Breakout Sessions – Review of Clinical Scenarios – All Faculty
- 16:30** Debrief/Adjourn
